# Dynamic Memory Cards

## Memory Game

Find all the card with a dynamic **symbol** and place them upside down in a row. Then make a row of cards with **Italian terms** and a row with **English definitions**.

Turn over one card from each row. Do the 3 cards make a match? If so, pick them up and put them aside. If not, turn them back over and try again. See how many tries it takes to match all the cards!

## To Make a Match You Need:

A symbol

An Italian term

An English definition
