Memory Game

Find all the cards with a picture of an interval and lay them upside down in a row. Then make a row of all the interval names, and a row with the harmonic & melodic cards.

Turn over one card from each row. Do the 3 cards match? If so, pick them up and put them aside. If not, turn them back over and try again. See how many tries it takes to match all the cards!

Term Reminders

Harmonic Interval =
Notes played together

Melodic Interval =
Notes played one at a time

Octave =
Eighth
